

Part Two of The Secrets Trilogy: The Marriage of Nefertiti – Book Two

Nefertiti decides her future lies with Prince Amenhotep, and the two young lovebirds risk everything when they fear they may have to marry other people. She must decide who she wants to be. Risks have high costs, but finally they begin to build status and respect at an ever-maneuvering royal court, with hopes to start a family of their own. The Prince pushes to be named heir to the throne, a move which would eventually make Nefertiti Queen. Lady Ikaret discovers acting on a choice to be kind brings riches and security. She travels again, partially for Pharaoh's upcoming kingdom-wide jubilee celebration, but also to make family matrimonial plans.
